

**Full Moon of Taurus, second Full Moon of this Astrological Year, on Wednesday, April 24, 2024, 01:48:44 in Romania:**

The main Keynote or phrase to consider for all Taurus Full Moons (each year): **“I see and when the Eye is opened, all is light.”** The Taurus Full Moon Keynote of Light each year is: **“The penetrating Light of the Path.”** (Hint: **This is a beam of light, streaming forth from the point in Aries, and revealing the area of light control.**)” Consider the Keynotes at, or as close to, the time of the Full Moon as possible and what it might mean as a Group. Each of the constellations also have at least one, but also as many as five, Ray determining energies by which they rule and of which they rule. **The main Ray energy of Taurus is Ray 1.** So, Taurus is considered to have main energies of Will and Power or what is considered as Direction or Sacrifice. It is a recommendation to consider the Taurus Keynotes as Ray 1 Keynotes. This is a direct correspondence to the information of our Color Consultations and the way this same Ray determining affects us individually and in our relationship to our group. So, our Color Consultation information can be reviewed and related to each of the Full Moon determining energies to determine the possible effects and opportunities each Full Moon offers each of us personally and in relationship with the group. This was explained and expanded upon from Esoteric Astrology (EA) in general in Addendum 1 from the past Aries Full Moon report (from April 2021). This year we are adding information on how each Ray effects the constellations as fundamental hypotheses as Addendum 1 below. Taurus is the second sign of the new Astrological year and the second of the three building energy and consciousness Full Moons of the year. It helps bring a new and continuing ‘birthing’ energy to the higher building cycle for the astrological year of Aries, Taurus, and Gemini (April, May, and June). Addendum 3 from the last Aries Full Moon report (from April 2023) is some additional information on the full moons and possible meditation forms (please let us know if you need that resent to you).

**A. Notes on this coming Full Moon of April/Taurus:**

- 1. Watch for any impressions** that may come to you before the Full Moon that may relate to the Ray 1 Keynotes and your specific Rays (from your Color Consultations), especially two days before the Full Moon, the day of the Full Moon and two days after the Full Moon. **If you want to share** any of your impressions with us please do. If you want any impressions shared with the group let us know and we will include them in the next month's meditation notes.
- 2. This is the second of twelve different Full Moons of this Astrological year (there will be thirteen Full Moons this year since there will be two Full moons in the sign of Cancer this year in June and July)** and is the second of the three different ‘Building Consciousness and Energy’ full moons of this astrological year. The energy which is built and gathered during these first three ‘Building’ Full Moons at the beginning of the astrological year, which is also called the ‘higher interlude’, will then be distributed over the last nine different Full Moons (or this year ten full moons for distribution) during the end of the astrological year, which is also called the ‘lower interlude’.
- 3. Addendum 1 from the Full Moon report of Aries (from April 2021) gives reference into more insight and inspiration for how to** view some of the expanded awareness of these monthly and yearly Full Moon cycles as we enter into the sixth Astrological Year of this group formation and the group's beginning functioning.
- 4. Addendum 1 below relates to** how each Ray effects the constellations as fundamental hypotheses.
- 5. The 2024-5 astrological year Annual Keynote is,** “LET THE GROUP DEDICATE ITSELF ANEW TO THE SERVICE OF THE COMING ONE AND DO ALL IT CAN TO PREPARE HUMAN MINDS AND HEARTS FOR THAT EVENT. WE HAVE NO OTHER LIFE INTENTION.”

**B. Notes and Activities on or since the last Full Moon March/Aries:**

- 1. SuonAngelMiriam meditated at the time of the full moon, new moon and equinox, together with Safi (when she wanted).** We had what we consider very good meditations of a new beginning of the start of this astrological year's beginning of the Higher Interlude. The second and middle of the Golden Light Presence of God crystals, ‘Ascending Levels’ has arrived we are also tuning in to our respective Nirvana III<sub>1 & 2</sub> esoteric group of crystals during our meditations and sensing an increase of energy due to these crystals.

2. **The Group Central Pillar Crystals** and the Esoteric and Occult crystal sets are now finalized along with any rearranging of the other crystals of the set for the 2025 impulse. Please let us know if you would like to explore any of these crystals or have any other input (see photo in previous FM report of Gemini of June 2022). **The three natural triple pointed crystal clusters** are always available for any group members who would like to meditate with them as another way to tune into group consciousness (see previous photo from March 2022 Pisces report). **Of three new 'Circumcentral' crystals one is still on a Lay-Away plan** to be here by the Summer Solstice of 2025 for the Hierarchical Group Impulse year of 2025. The first of the three has arrived before the past Full Moon of Taurus 2023 and the second has arrived for this full moon of Taurus 2024 (see photo below or <http://www.sam2013.org/crystals.html> on our website for more information).

3. **Poppy research at BioFarmland (BFL)** at Virginia's suggestion. Seeds from this year's wild Poppy harvest were collected and planted in last June 2023 for growing during the 2024 season.
4. **Revised and renewed Hemp Museum suggestion** presented to Zoli, Virginia, and Leontina as a possible group project. There was similar input about local, village or household museums from the "Socio-Economico-Cultural Rebirth of the Romanian Village" conference in previous reports. Latest brief meeting was in Timisoara this spring to talk more informally about these topics.
5. **Based on Leontina's previous intentions to establish an educational location near her home further discussions are going on about** a location, financing, possible links to other hemp projects and people. An initial estimate to get a small workshop space built on her land, for materials with mainly voluntary labor or construction, is 3,000 Euros. Due to challenges encountered with the political system at her home location, Leontina has decided to stop for the moment Sopronul Cultural and the building of the dome until the environment becomes more friendly to her projects. See previous update concerning Pamantul Stramosesc in the FM 2023 Sagittarius Report.
6. **SuonAngelMiriam have met personally with Georghe Piperea** and joined his class action law suit against the constitutionality of mandates which is moving forward as discussed in the Full Moon cover letter for Capricorn (2021). September 2022 hearing produced a change in how and who the law suit will be claiming as the defendants and the suit is continuing now at the appeal stage of litigation. The next court date has been set for late January 2024. We were notified last week that he case has been lost without further appeal and we are awaiting the details of the courts decision. Let us know if you have additional comments or questions.
7. **SuonAngelMiriam are continuing our interaction with Katharina documenting** how to manage and implement new and better ways of herb growing, drying, processing, soil regeneration, etc.

8. **SuonAngelMiriam are interacting with Virginia on her Bio-Resonance and Herbal and Aromatherapy courses, consultations** and treatments along with the consideration of the SAM2013 Synthesise Tri-Level Color Set as liquids. Updated at meetings in September and October 2022, continuing with Virginia's Certified Herbal and Aroma Therapy courses #1 and now #2 which was in March 2023 and had another meeting at EsotericFest in June 2023 (also see Item #2 below in previous activities archive). The most recent meeting was held at EsotericFest in November 2023 with plans for the next meeting in Spring 2024 once work is completed on Color and Crystal Course educational manuals. The manuals have been completed in February 2024 and two meetings were held in March to go over more input and refinements of the process prior to a May meeting at EsotericFest in Timisoara.
9. **SuonAngelMiriam are working with Remus and others on updating and expanding** one of his personal spirituality courses on Self Esteem as an Esoteric Group project. Anyone interested in knowing more or helping in this group project please let us know. Latest update was in October 2023.
10. **We participated in Remus' course about Stress Management** held through anatecor which is related to Virginia's fitotherapy course. We also attended the prayer zoom meeting he and Anatecor organized for the professor Mircea Stefea who passed recently.
11. **SuonAngelMiriam are working with Aurellian on how some of the concepts of his book and course** on "The Numerology of the Soul" might relate and correspond to the SAM2013 Synthesis Tri-Level Color System numerology. Both Aurellian and Suon have had direct contact with Yogi Bahjan who taught the numerology of the soul concepts.
12. **SuonAngelMiriam are working with Mircea on ways of distributing SAMfume** and other products and working more closely together on the other projects listed above. Recent meetings held in September Singfest and at the Singureni Christmas Fair 2022 and then in June 2023 also. The last meeting in Bucharest in March, 2024 for a brief update.

### **C. Previous Activities Archive:**

1. **Hemp** for cooperative research at BioFarmland (BFL) on hold after 3 years of testing.
2. **2023 Timisoara Cultural Capital office cooperative event named 'SAMatate'**. See FM Sagittarius 2023 for final update on this report.

### **D. General Notes and considerations about the group, cycles, meditation and information flow:**

1. **We are happy to get to know each other better**, or other ways that we may cooperate either personally, or as organizations. Please let us know if you would like any other meetings or if you have any other comments or questions.
2. **2023 continues the new seven year cycle started in 2020**. The final major group 'impact' has been made in 2019 prior to the next 100 year 'impulse' which happens during 2025.
3. **It might be considered that these Group Meditations seek** to make use of the spiritual opportunities that the cycles of full moons, solstices and equinoxes, Group Festival Weeks and Centennial Impulse years provide. The unique energies associated with each constellation, season and longer cycles are directed into the consciousness as trans-formative qualities that can lift and expand our hearts and minds.
4. **It might be considered that Group Living tends to the fulfillment of free will in service** and, as this is gradually understood, coming together to co-operate on issues for the benefit of the whole without intentions to dominate, interfere or impose on others. The vision is there, the future is assured, but the key to its successful implementation is that co-operation has to be based on intentions that are based on the good of the whole rather than a focus on self-interest.
5. **In all meditation it is of value for the student to remember that**, from the standpoint of permanent benefit, it is easier to meditate effectively during the period from the new moon to the full moon, than from the full moon to the new moon. The first half of the lunar cycle is one of intensification, absorption and accretion; the second half is one of assimilation and distribution. More real progress over a long period can be made by observing this cyclic law.
6. **Wisely utilizing newly acquired energies keeps inflowing and out flowing channels open** and prevents Sycal (psychical), Astral (emotional), Mental (intellectual) congestions, which may otherwise be experienced, with their accompanying physical consequences.
7. **The following regular monthly cycle is for the group information flow:**
  - a. Full Moon (five days): Two days before, the day of (meditation), and two days after Full Moon for getting impressions.
  - b. The week after the 5 days of the Full Moon: For letting us know or sharing of any impressions during the preceding 5 days. Plus us transcribing our own impressions.
  - c. Second week after Full Moon for 'Anchoring' or 'Grounding' impressions through gathering other information or following up on activities based on the impressions. Possible New Moon meditation by those who want and ending that Full Moon Cycle.
  - d. Third week after Full Moon (just after the New Moon): Starting to build up to the next Full Moon having any questions to impressions shared and answered and any activities based on impressions started or completed.
  - e. Fourth week after the Full Moon (just before the next Full Moon): Coming out with the Keynote and information and timing of the next Full Moon, including the shared impressions or activity from the last Full Moon.

**The Zodiac and the Rays (Continued from the last Full Moon report of Aries):**

...Two other points should here be added. First: the individual etheric body is not an isolated and separated human vehicle but is, in a peculiar sense, an integral part of the etheric body of that entity which we have called the human family; this kingdom in nature, through its etheric body, is an integral part of the planetary etheric body; the planetary etheric body is not separated off from the etheric bodies of other planets but all of them in their totality, along with the etheric body of the sun constitute the etheric body of the solar system. This is related to the etheric bodies of the six solar systems which, with ours, form a cosmic unity and into these pour energies and forces from certain great constellations. The field of space is etheric in nature and its vital body is composed of the totality of etheric bodies of all constellations, solar systems and planets which are found therein. Throughout this cosmic golden web there is a constant circulation of energies and forces and this constitutes the scientific basis of the astrological theories. Just as the forces of the planet and of the inner spiritual man (to mention only one factor among many) pour through the etheric body of the individual man upon the physical plane, and condition his outer expression, activities, and qualities, so do the varying forces of the universe pour through every part of the etheric body of that entity we call space and condition and determine the outer expression, the activities and qualities of every form found within the cosmic periphery.

The second point I would make is that within the human etheric body there are to be found seven major force centres which are in the nature of distributing agencies and electrical batteries, providing dynamic force and qualitative energy to the man; they produce definite effects upon his outer physical manifestation. Through their constant activity his quality appears, his ray tendencies begin to emerge and his point in evolution is clearly indicated.

This "control of form through a septenate of energies" (as it is defined in the Old Commentary) is an unalterable rule in the inner government of our universe and of our particular solar system, as well as in the case of individual man. There are, for instance, in our solar system, seven sacred planets which correspond to the seven individual force centres in man, the seven solar systems, of which our solar system is one, and in their turn the seven energy centres of the One to Whom I have referred in my other books as the One About Whom Naught Can Be Said.

Much has been given in the occult books of which the average astrologer remains profoundly unaware. It is essential that he learns to think in larger Wholes and to be more deeply concerned with the emanating Sources and with the eternal persistent Causes than with the effects of these Sources upon that ephemeral creation, a human being and his temporary existence upon a most unimportant planet. As he seeks to do this, he will discover for himself the signs of the essential divinity of man—a divinity which is to be found in the infinite grasp of man's consciousness when illumined by the light of the soul and in his power to project his thought into the consciousness of those manifold Lives Whose "energetic movements" he must perforce share because his small modicum of energy is an integral part of Theirs.

There is one aspect of energy for which the modern astrologer makes very little allowance, and yet it is of paramount importance. This is the energy which emanates from or radiates from the Earth itself. Living as all human beings do upon the surface of the Earth and being, therefore, projected into the etheric body of the planet (for the reason that "man stands erect") man's body is at all times bathed in the emanations and the radiations of our Earth and in the integral quality of our planetary Logos as He sends forth and transmits energy within His planetary environment. Astrologers have always emphasised the incoming influences and energies as they beat upon and play through our little planet, but they have omitted to take into adequate consideration the emanating qualities and forces which are the contribution of our Earth's etheric body to the larger whole. This we will consider later, but I felt the necessity of calling your attention to it at this time.

Another point which should here be noted is that the influence of the moon is purely symbolic in nature and in effect and is simply the result of ancient thought and teaching (descended to us from Lemurian times) and is not based upon any true radiation or influence. In those far off times, antedating even Lemuria and constituting in Lemurian days simply an ancient tradition, the moon appeared to be a living vital entity. But I would have you bear definitely in mind that today the moon is nothing more than a dead form. It has no emanation and no radiation of any kind and, therefore, has no effect of any kind. The moon, from the angle of the esoteric knower, is simply an obstruction in space—an undesirable form which must some day

disappear. In esoteric astrology, the effect of the moon is noted as a thought effect and as the result of a powerful and most ancient thoughtform; nevertheless, the moon has no quality of her own and can transmit nothing to the Earth. Let me reiterate: The moon is a dead form; it has no emanation at all. That is why the moon is spoken of in the ancient teaching as "veiling either Vulcan or Uranus." This hint or inference has always been here and astrologers would do well to experiment with this suggestion I have made anent the moon and (instead of working with the moon) let them work with Vulcan when dealing with the undeveloped or average man and with Uranus when considering the highly developed man. They would find some interesting and convincing results eventuate.

Students would also do well to remember that the twelve constellations which constitute our particular zodiac are themselves the recipients of many streams of energy coming to them from many sources. These blend and fuse with the energy of any particular constellation and—transmuted and "occultly refined"—eventually find their way into our solar system.

I would like to call attention, at this point, to some comments I made in *A Treatise on Cosmic Fire* which are apposite and helpful. I am somewhat paraphrasing:

"Astrology is concerned with the effect produced in the substance of the sheaths by the influences, vibrations, etc., of the various planets. These are, esoterically, the influences of the solar centres. The forces, emanating from the solar centres, play upon the planetary centres.... This is hidden in the karma of the Heavenly Man. When true esoteric astrology comes into being, more anent this will be given. Astrological students are today only learning the ABC of this stupendous subject and are occupied with the exoteric fringes of that great veil which has been thrown wisely over planetary lore."

(*A Treatise on Cosmic Fire*, p. 1051)

The following is a list—incomplete but adequate for our purposes—of the major influences which find their way from far distant Sources into our planetary life and produce definite effects upon individual man and humanity as a whole.

- I.
  1. The constellation of the Great Bear.
  2. The Seven Sisters of the Pleiades.
  3. Sirius, the Dog Star.
  
- II.
  1. The seven solar systems of which ours is one.
  2. The seven sacred planets of which ours is not one.
  3. The five non-sacred planets or "hidden" planets.
  
- III.
  1. The seven planetary centres.
  2. The seven centres of force in the human etheric body.
  
- IV.
  1. The twelve zodiacal constellations.

We thus have a ninefold energy impact. This is a major chart but it should be remembered that there are other impacts of relative insignificance.

To these would be added other streams of energy which definitely play upon and affect our planetary life, such as those coming from that great star, Betelgeuse, or from Antares and other stupendous suns and solar systems which are related to the constellations of the zodiac and whose force reaches us through these constellations and not directly.

Besides these, it should be remembered that technically we should also add the radiatory influence which comes direct to us from the planet, the Earth, upon which we live. Then, and only then, can you have a fairly complete analysis and picture of the energies to which the etheric body of man (conditioning the physical body which is pre-eminently automatic and negative in its reactions) must and does ever respond. An understanding of that response and the conscious intelligent control of individual reactions are supremely necessary to man but only become possible at a fairly advanced stage of development and as he nears the Path (technically understood). Man learns first of all to control his reactions to the planets as they rule and direct his personality affairs from their different "stations" in the twelve houses of his horoscope. There are two ways in which this is done:

First: By having the horoscope duly cast and then taking steps to determine what should be done to negate the planetary influences where it is deemed desirable to control the personality reactions. This has to be done by the applied power of thought. This necessitates complete confidence in the understanding and interpretation of the astrologer and the recognition of the exact moment of birth. One wonders if these conditions of the exact moment and the completely wise astrologer are ever to be found as yet.

Second: By consciously assuming the position of the spiritual Observer, and by cultivating the power to respond to the Soul. Then, from the angle of that Soul, the man must learn to control circumstance and the attendant reactions of the personality...

**To Be Continued in the next Full Moon report of Gemini.**

**To be considered below as closing for this Full Moon report of Taurus.**

...Again and repeatedly, students must remind themselves that we are considering the impact of energy upon energy units (all qualified and producing appearance) and with the response of those energy units to the streams of force which reach them from "the furthest centre." It is in the development of response to distant points of contact and emanating sources of energy that the needed sensitivity is produced. Sensitivity, generally speaking, is of a threefold nature:

1. Sensitivity to that which is found within oneself. This, when the consciousness is adequately self-sufficient, opens a door for the entrance of energies coming from the "middle centre." I speak in symbols and for those whose knowledge of cosmic location and of points in time and space will enable them to comprehend; to the uninitiate, I simply say, "Respond to soul impact."
2. Sensitivity to that which emanates from the "centres left behind" or to those streams of vital energy which lie active and focussed below the threshold of the waking consciousness. They stir the threads of memory; they draw backward the glances (and there lies magic in the energy of the eye) of the onward moving Point, the Pilgrim on his way; they condition through ancient habit the responsiveness of the units in the form.
3. A developed sensitivity which emerges from the "furthest centre" at first unconsciously employed and later consciously directed and attuned - a fully magnetic and attractive sensitivity. Forget not that true interplay imposes the condition of reciprocity and that the two points or termini of a line eventually vibrate in unison.

The Rays pour through, are expressed by and are transmitted through the following constellations:

Ray I	Aries	Leo	Capricorn
Ray II	Gemini	Virgo	Pisces
Ray III	Cancer	Libra	Capricorn
Ray IV	Taurus	Scorpio	Sagittarius
Ray V	Leo	Sagittarius	Aquarius
Ray VI	Virgo	Sagittarius	Pisces
Ray VII	Aries	Cancer	Capricorn

**Conclusion (at this point):**

May we consider together entering into that higher state of (group/soul) 'bewilderment', especially at this cycle of Aquarian consciousness, yet strength and unity from our lower state of personal certitude and isolation to possibly obtain a universal group consciousness.
